EDUCATION

Bharati Vidyapeeth's College of Engineering — New Delhi, India
Bachelor of Technology in Computer Science — *Nov. 2022 – June 2026*

Coding Blocks — New Delhi, India
Full-Stack Web Development Course — *Aug. 2023 – Jan. 2024*

Mahavir Senior Model School — New Delhi, India
Graduated with a strong foundation in academic excellence — *2008 – June 2022*

EXPERIENCE

Web Development Intern — Sept. 2024 – Present
NullClass Technologies — *Remote*

- Increased website speed through front-end code optimization, enhancing user retention and overall experience.
- Engineered and maintained back-end services using Node.js and Express, resulting in faster data retrieval from MongoDB
- Spearheaded API integration, improving system response times by 20 percent across multiple applications.

Freelancing — Jun. 2024 – Jul. 2024
Self-Employed — *Remote*

- Developed a full-stack application using React, Vite, Tailwind CSS, Node.js, and Express.js, ensuring a responsive and user-friendly interface.
- Collaborated with team members effectively, demonstrating strong teamwork to meet project goals.
- Enhanced application performance by optimizing code and implementing best practices in software development.

General Secretary, TechShuttle Student Chapter — Feb. 2024 – Present
Bharati Vidyapeeth's College of Engineering — *New Delhi, India*

- Led a team of 8 in organizing two workshops, with a 90 percent satisfaction rate and over 100 participants.
- Pioneered the development of a game demo for UI design, improving student participation by 30 percent in technical events.

PROJECTS

Gibbly | *React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB* — Jun. 2024 – Jul. 2024
- An extensive design of the Gibbly website, where teachers can create quizzes and students can play them. This project is built using modern web technologies to enhance both functionality and user experience.
- Scalability: Built with scalability in mind, this project is designed to handle a growing number of users and features.

Unity Fund | *React, Vite, Tailwind CSS, Framer-Motion, Git* — Jul. 2024
- Developed a responsive website to facilitate donations and support for underprivileged communities, ensuring accessibility and user-friendliness across all devices.
- Integrated subtle animations using Framer Motion to enhance user engagement and create a dynamic user experience.

Portfolio Website | *Next.js, Tailwind CSS, Framer-Motion, Material-UI, Shadcn-UI, Git* — Aug. 2024
- Built a responsive portfolio with a modern, user-friendly design, leading to a 50 percent increase in project views.

TECHNICAL SKILLS

Core: Front End, Web Design, Project Management, Backend Programming, Developing APIs, Javascript Frameworks, Programming Languages, Web Applications, Website Architecture
Languages: Java, Python, C/C++, MySQL, JavaScript, HTML/CSS, MongoDB, PHP
Frameworks: Next.js, Angular.js, React.js, Node.js, Vite, Material-UI, FastAPI, Shadcn-UI
Developer Tools: Git, Google Cloud Platform, VS Code, Visual Studio, PyCharm, Vercel, Netlify, Convex

Soft Skills

- Leadership and Team Collaboration
- Strategic Problem Solving
- Effective Communication
- Project Management
- Time Management
