EDUCATION

Bharati Vidyapeeth's College of Engineering

Bachelor of Technology in Computer Science - **GPA** - 8.2

New Delhi, India

Nov. 2022 – June 2026

Mahavir Senior Model School

Graduated with a strong foundation in academic excellence - **Percentage** - 93%

New Delhi, India

2008 – June 2022

EXPERIENCE

Adobe Experience Manager (AEM) Intern

Feb. 2025 – Present

Techchefz Digital

Hybrid

- Assisting in the development and optimization of enterprise-level web applications using Adobe Experience Manager (AEM).
- Gaining hands-on experience with AEM Sites, Assets, and Components, leveraging JCR, Apache Sling, and OSGi for scalable content management.
- Collaborating with cross-functional teams to enhance digital experiences and streamline content workflows.

Web Development Intern

Sept. 2024 – Feb. 2025

NullClass Technologies

Remote

- Increased website speed through front-end code optimization, enhancing user retention and overall experience.
- Engineered and maintained back-end services using Node.js and Express, resulting in faster data retrieval from MongoDB.
- Spearheaded API integration, improving system response times by 20% across multiple applications.

PROJECTS

Slide | Next.js, Tailwind CSS, Prisma, Clerk, Relume 🚀

Feb. 2025 – Present

- Developed a SaaS platform to automate Instagram interactions, leveraging AI for dynamic DMs and comment responses.
- Implemented automation triggers based on user-defined keywords, enhancing response accuracy and customer engagement.
- Designed a user-friendly dashboard for seamless management of Instagram profiles, automation settings, and analytics.

CarePulse | Next.js, TypeScript, Appwrite, Tailwind CSS, Twilio, Sentry 🚀

Jan. 2025

- A healthcare patient management application that allows patients to easily register, book, and manage their appointments with doctors, featuring administrative tools for scheduling, confirming, and canceling appointments, along with SMS notifications, all built using Next.js.
- The application works seamlessly on all device types and screen sizes. It handles complex forms and uses Sentry to monitor and track its performance and detect any errors.

Gibbly | React, Express.js, Tailwind CSS 🚀

Jun. 2024 – Jul. 2024

- An extensive design of the Gibbly website, where teachers can create quizzes and students can play them. This project is built using modern web technologies to enhance both functionality and user experience.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, MySQL, JavaScript, TypeScript, HTML/CSS

Frameworks: Next.js, React.js, Node.js, Express.js, Linux

Developer Tools: VS Code, Github, Convex, MongoDB

ACHIEVEMENTS AND CERTIFICATIONS

Design Verse Hackathon: Secured 3rd Position for the *Best Idea and UI/UX Design* organized by IEEE BVCOE.

Idea Roulette Hackathon: Secured the third position for the presentation of innovative ideas and solutions at a hackathon organized by the Codechef Student Chapter Cell BVCOE.

Certificate of Excellence: Awarded for outstanding performance in the Web Development course conducted by Coding Blocks.
